DETAILED ACTION

Election/Restrictions

Applicant's election of Group I, claims 1-37 in Paper No. 8 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application contains claims 24, 30, 36, 38-48 which are drawn to an invention nonelected with traverse in Paper No. 8. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Applicant elected oridonin and the extract *humulus lupulus*. Since lupulone comes from *humulus lupulus* the invention will be examined to that extent that the extract *humulus lupulus* contains the lupulone.

Claim 48 is also non-elected since it contains other ingredients which were not elected before.

Claims 24, 30, 36 claim an extract which was not elected by applicant.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10, 17, 25, 31, 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 does not further limit claim 9 since claim 1 already contains an extract of humulus lupulus in it, specifically, lupulone. Claims 17, 25, 31, 37 are confusing since claim 1 already claims oridonin which is what comes from the extracts of claims 17, 25, 31, 37.

Claim Rejections - 35 USC § 103

Claims 1-23, 25-29, 31-35 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 57167938, GB 1476016 or JP 352102434 taken with JP 11236334 or JP 52145509.

Applicant argues that the references do not teach that the compounds/extracts can be used together in the same composition. **All** of the references teach using their extract for treating cancer. It is clear that the same purpose is contemplated by the references for the extracts. Since the extracts contain the oridonin and the lupulone it is not understood what applicant does not agree with. The references are very clear in their use of the extracts for a common purpose.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
